

City Council May Invoke Stiff Penalties For Late Business License Fees

Albany City Council Monday night referred back to Administrative Assistant James B. Turner and City Attorney Lawrence D. Saler a proposal by Turner to increase current low penalties for late payment of business license fees.

If it is determined that the City of Albany can legally impose the penalties (which are not as stringent as those in other cities in the area), the fees may go to 25 per cent of the license after 30 days or 50 per cent if it goes beyond the second month.

In each case, there is a minimum penalty. The 25 per cent includes the wording, "or \$5, whichever is greater," and in the 50 per cent category are the words, "or \$10, whichever is greater."

Council filed and took no action on communications from Julian C. Dixon, Assemblyman from 63rd district, regarding non-returnable beverage containers, and from Helen Story, East Bay Group Against Smok-

ing Pollution," asking Jan. 11-17 be declared "Nonsmoker's Rights Week."

Mayor Lewis Howell said he believes broken bottles on beaches or near swimming pools are more dangerous than cans. He said flip-top cans are dangerous and should be abandoned and also suggested stiff fines for those who litter.

Councilmen said they attempt to respect the rights of both smoker and non-smokers. Mayor Howell said he quit smoking a year ago Thanksgiving, but he is not offended by those who smoke. Council has designated seating in the chamber for those who wish to smoke and for those who do not.

A letter was read from William I. Garren, who represented the City and Chamber of Commerce at a meeting of the Environmental Protection group in San Francisco in December. Referring to the parking lot taxes and other EPA proposals, Garren urged the Council to watch carefully what is being proposed, and to be put on the mailing lists of League of California Cities and the EPA office.

Turner pointed out that Albany did strongly object to

EPA and each of our legislators when the parking lot taxes were first proposed. He read a message from Sen. John Tunney stating parking surcharge has been shelved at least temporarily and expressing his opposition to it. He said there must be an alternative to the internal combustion engine.

Mayor Howell will write a letter of thanks to Garren, enclosing a copy of the Tunney letter.

Howell said the Bay Area was one of the first districts in the country to have an Air Pollution Control Board, adding that Alameda, Contra Costa and San Francisco counties have done more to control air pollution than most areas, including a rapid transit system.

Other areas which may bear looking into, Mayor Howell suggested, are apartments for senior citizens with no garages and mini-bus service to transport seniors to shopping on Solano and San Pablo or to BART stations. He said Albany should investigate the possibility of federal funding for pilot projects.

The meeting adjourned at 8:25 p.m.

'Battery Brigade'

Mothers' March Chairmen Remind Albany Residents 'The Time Is Now'

You might almost call these ladies the "Battery Brigade," because flashlights are such an important part of their lives every year at this time, as they prepare for the annual Mothers' March against birth defects for the March of Dimes.

Co-Chairmen for the past several years are Doris (Mrs. William) Chambers (fourth from left) and Peggy Jean (Mrs. John H.) Thomsen, far right,

and they've lined up a crew of willing workers to cover the City of Albany on the house to house march. Left to right Committee members are Diane Leahy, Arlene Myers, Gail Gillis, Doris Chambers, Jackie Armstrong, Helen McKenna, Melba Bendure, and Peggy Thompson. Not able to be on hand for the photo are Ida Fer-

guson and Leslie Moe.

Doris Chambers knows firsthand the good the March of Dimes money can do, having had a cousin who as a polio victim was helped through several complicated operations by March of Dimes funds. So, even though she works full time and has the responsibility of a family with three active youngsters, she always makes time to work — and work hard — for the march.

Peggy Jean Thomsen, mother of two healthy young people,

sces examples of March of Dimes money at work in her job as a teacher. "The instructional materials are excellent," she says, "and I've met some of the men doing birth defect research and I am very impressed."

The Mothers' March which started in 1938 is a major fundraiser for March of Dimes and goes to support programs of research, medical service and health education aimed at prevention of birth defects.

BETTER PARKLAND, PLEASE HELP

Have you seen that sorry 1.1 acre of upslope on Albany Hill that the City accepted as \$258,000 worth of public parkland? Did you know that more and better land was available for less money?

Citizens for Better Parkland is committed to resolving the legal and financial questions raised by parkland acquisition as part of the IGC development "package"—and to helping meet the expenses of several Albany taxpayers

who are prepared to represent what they see as the City's real interests by taking these questions to court.

Substantial expenses have already been incurred. Your support is necessary if Albany is to have the best possible park sites.

Please attend a general meeting at 7:30 p.m. Thursday, January 10, in the Cornell Library, and send your contribution to:

ALL THOSE parents who are upset because their children now have to go to school in the dark really amused our high school twosome, who have been making classes by 7 a.m. in the dark for two years. One is puzzled as to how they're going to play volleyball outdoors when it's too dark to see the ball. You really can't win in Albany with double sessions. Big ones go to school in darkness; younger ones return home by street-light.
